EXPERIENCED — Bootstrap, D3, AngularJS, MongoDB, Mongoose, MySQL, Bookshelf, Backbone, Heroku, DigitalOcean, Grunt, Gulp, Karma, React Highcharts

---

APPLICATIONS

SURVEY SCRIBE | Software Developer | *Simple, beautiful survey app*   surveyscribe.elijahschow.com
- Combined a React UI with a persistent Redux store for simple data manipulation and beautifully rendered pages
- Implemented TDD unit testing for our Redux reducers, utility functions, and API endpoints using Mocha/Chai
- Used MongoDB and Mongoose to store a multiplicity of data types

CARDCAST | Software Developer, Scrum Master | *Collaborative presentation tool for Chromecast*   cardcast.tylerholzer.com
- Refactored a legacy code base by adding additional customizability features to improve UX
- Extended existing MongoDB schema with Mongoose to create tiers of data organization
- Implemented an intuitive user interface using AngularJS, Bootstrap, and MDL to integrate styling across clients
- Augmented Nodejs/Express routing to accommodate new AngularJS modules, views, and controllers

ECHOES | Software Developer | *A living listening history app*   fierce-sea-69693.herokuapp.com/
- Constructed PSQL database and Knex queries/schema to store user input and data from iTunes API
- Built Node.js/Express server to facilitate responsive communication between server, database, and front-end
- Integrated React components with Bootstrap to create a clear and responsive user experience

---

BUSINESS ADMINISTRATOR | Passport Health   2016
- Ran itinerant flu clinics across Austin processing 100s of insurance paperwork daily
- Proposed documentation improvements to increase efficiency while maintaining processing accuracy

---

EDUCATION

HACK REACTOR | *Advanced Software Engineering Immersive Program*   2017
THE UNIVERSITY OF TEXAS AT AUSTIN | *B.A. in Plan II Honors and Theatre & Dance*   2014

PERSONAL

On the weekend, you can find me getting my bard on with Shit-Faced Shakespeare or cracking ciphers at one of the many escape rooms in Austin.
